REANZEN
LIFE ENGINEERING LAB

The background is a vibrant blue with a soft gradient. It features several overlapping circles of varying shades of blue, some of which are semi-transparent. On the left side, there are numerous small, realistic water droplets of different sizes, some with highlights, giving a sense of freshness and purity. The overall aesthetic is clean, modern, and scientific.

About US

Who we are

Reanzen Co., Ltd. is a global company, established in 2015, that researches and develops medical products based on biotechnology and biocompatibility.

Reanzen is advancing into a global company through continuous growth and further expanding its overseas network, focusing on top-level medical devices and skin care products.

In addition, we are achieving rapid growth every year by providing the best products to our customers. We are strengthening our position as a global leader by building a global network with 44 countries

What we do

Reanzen provides safe and highly effective medical devices, cosmeceuticals, and skin care cosmetics, and is also focusing on research and development of products using new bio materials with our proprietary technology.

In line with Reanzen's corporate philosophy, based on rules, responsibility, and trust, we actively support permits and license registrations with a sense of responsibility for the promotion of overseas sales.

Reanzen always provides innovative products with the best quality and service.

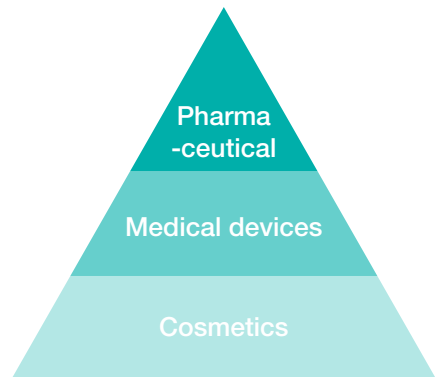

Perfect Quality

Experts choose high-purity raw materials with excellent properties.

High-purity raw materials from France combine with Reanzen's best technology to create high-quality products.

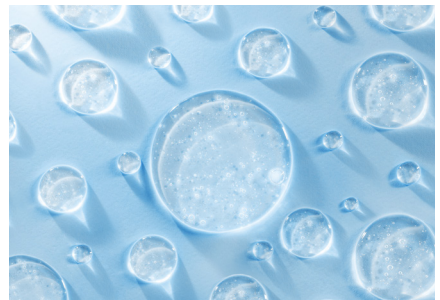

The purity of raw materials is directly related to the safety of the products, and perfect quality products begin with the use of high-purity & high-quality raw materials.

Raw material grades are divided into three levels according to the standards for handling impurities. The higher the grade of raw materials, the stricter the standard, and it has few impurities that cause inflammation or hypersensitivity reactions.

Hyaluronic Acid(HA)

- Use of Pharmaceutical grade HA raw materials that are highly purified with very low level of impurities.
- **NON-GMO (Non-Genetically Modified Organism)**
 - Minimize physical and chemical deformation with non-genetically modified raw materials
 - It helps consistent efficacy and safety of the final product

Polynucleotide(PN)

- Use of PN from by-product Alaska salmon made in France.
- **Excellent biocompatibility**
Natural material suitable for the human body and guaranteed safety
- **Wound healing ingredients**
Stimulates the skin's recovery ability to recover with the skin's natural strength

These raw materials only apply to Reanzen's own brand.

HA 1.1mL

About UREVS HA Filler

UREVS HA filler delivers unparalleled performance through Reanzen's proprietary 2H2M technology. It features natural volume, exceptional stability, and outstanding durability.

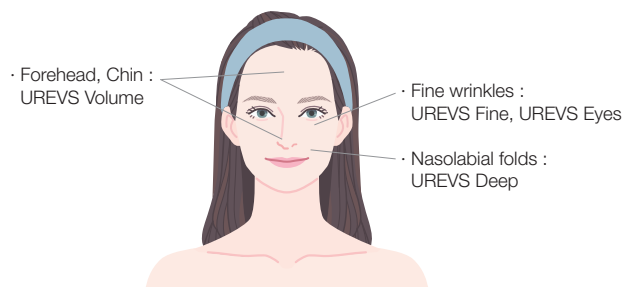

Product Specification

Product Name	UREVS Fine	UREVS Deep	UREVS Volume	UREVS Eyes
Ingredient · Content	HA 24.0mg/mL + Lidocaine 3.0mg/mL			HA(Non-crosslinked) 10.0mg/mL + PN(Polynucleotide) 2mg/mL + Niacinamide
Viscoelasticity	60~120 Pa	150~210 Pa	260~300 Pa	-
Package	1.1mL x 1 syringe			2.0mL x 1 syringe
Efficacy	Temporarily improve facial wrinkles in adults			
Needle (G)	30G x 2 needles	27g x 2 needles	25G x 2 needles	-
Storage conditions	Avoid direct sunlight and store between 2 ~ 25 °C.			
Expiry date	24 months from the date of manufacture			

Features & Benefits

Duration	Smooth Extrusion Force
Stable crosslinking improves filler duration	Precise and stable treatment possible
Safety	Cohesiveness
Unique purification process minimize hazardous substances and all processes are carried out in an environment that does not cause HA transformation	Minimize the filler migration rate from the treatment area and maintain its shape

Application area

Replengen

HA 1.1mL

About Replengen HA Filler

Reanzen's premium HA Filler combines its own MGT™ (Micro Grinding Technology) and HBCT™ (Hexagonal Block Crosslinking Technology) technologies. This provides natural results from micro correction to volumizing in various treatment areas.

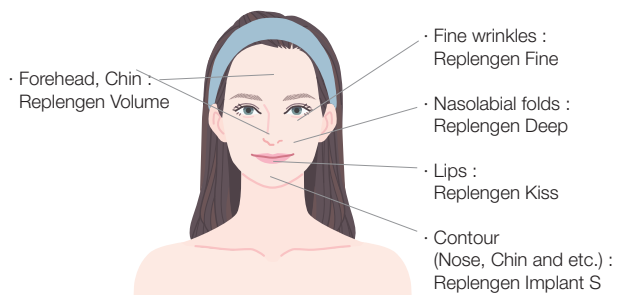

Product Specification

Duration	Smooth Extrusion Force	Safety	Cohesiveness
Stable crosslinking improves filler duration	Precise and stable treatment possible	Unique purification process minimize hazardous substances and all processes are carried out in an environment that does not cause HA transformation	Minimize the filler migration rate from the treatment area and maintain its shape

Replengen Vital

About Replengen Vital

Replengen Vital offers fast efficacy and deep hydration, providing your skin with renewed vitality and a brighter, naturally balanced tone.

Product Specification

Product Name	Replengen Vital
Ingredient · Content	HA(Non-crosslinked) 10mg/mL + PN(Polynucleotide) 10mg/mL + Succin Acid
Package · Needle (G)	2.5mL x 2 syringes / 30G x 4 needles
Efficacy	Hydrating, wrinkle improvement, and vitality enhancement
Storage conditions	Avoid direct sunlight and store between 2 ~ 25 °C.
Expiry date	24 months from the date of manufacture

Features & Benefits

Natural Vitality

Improves dull skin tone and brightens and vitalizes the skin by replenishing moisture

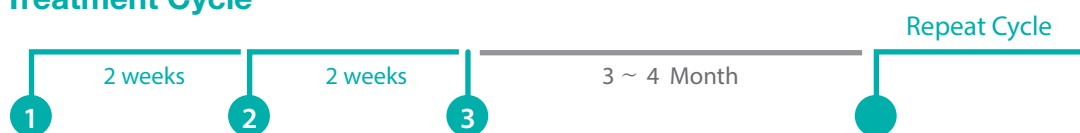

Fast Efficacy

Fast skin improvement effect after 2-3 days of treatment

Excellent Hydration

Moisturizing effect that rises from deep within the skin and improves oil-water balance

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

UREVS Hydro PLA

About Hydro PLA

REVS Hydro PLA is a Class II Wound Dressing that acts as a Smart Regenerative Booster, utilizing soft, stable Poly-D,L-Lactic Acid and exclusive CMT technology to provide stable injection and restore skin structure for effective regeneration.

Product Specification

Product Name	UREVS Hydro PLA
Ingredient · Content	PLA (Poly DL-Lactide)
Package	50mg x 10 vials
Efficacy	Protects areas where the skin barrier is destroyed
Dissolution Time	90 minutes
Storage conditions	Avoid direct sunlight and store between 2 ~ 25 °C.
Expiry date	24 months from the date of manufacture

Features & Benefits

Fast dissolution Rapid dissolution of the product and no nodule formation because of perfect spherical shape of the bead made by uniform particles	Eco-friendly materials Eco-friendly materials synthesized using 100% recyclable materials [corn, potato starch]	Self volume production Semi-permanent effect due to collagen production within the skin
--	---	---

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

Replengen Ideology

About Replengen Ideology

It promotes collagen production by stimulating fibroblasts, and contributes to skin volume recovery and elasticity improvement.

Product Specification

Product Name	Replengen Ideology					
Ingredient · Content	PLA(Poly D,L Lactide Acid) 77% / CMC(Carboxymethy Cellulose) 23%					
Microsphere	25~75µm					
Package	50mg	100mg	200mg	400mgs	600mg	1000mg
Efficacy	Improvement of facial wrinkles in adults					
Dissolution Time	90 minutes					
Storage conditions	Avoid direct sunlight and store between 2 ~ 25 °C.					
Expiry date	24 months from the date of manufacture					

Features & Benefits

Fast dissolution

Rapid dissolution of the product and no nodule formation because of perfect spherical shape of the bead made by uniform particles

Eco-friendly materials

Eco-friendly materials synthesized using 100% recyclable materials [corn, potato starch]

Verified Safety

When injected into the skin, it is decomposed into lactic acid and excreted outside the body in the form of water and carbon dioxide

Long retention period

Semi-permanent effect expected because of collagen production in the skin

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

REVS O

About REVS O

PN (Polynucleotide) filler that helps skin cell regeneration and improves the fundamental cause of aging.

Product Specification

Product Name	REVS O
Ingredient · Content	PN(Polynucleotide) 20.0mg/mL
Viscoelasticity	20,000 cP
Package	2.0mL x 2 syringe
Efficacy	Temporarily improve facial wrinkles in adults
Needle (G)	[33G x 4mm] x 4 needles
Storage conditions	Avoid direct sunlight and store between 2 ~ 25 °C.
Expiry date	24 months from the date of manufacture

Features & Benefits

Skin regeneration	Verified Safety	Balance recovery	Elasticity improvement
Enhances self-renewal power by activating the skin's own regenerative ability	Highly biocompatible ingredient that does not cause rejective reaction to the skin.	Reduces sebum secretion and improves skin texture by restoring oil-water balance	Replenish elastic fibers by promoting the functions of collagen and fibroblasts, which are reduced due to aging

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

UREVS O

About UREVS O

A PN (Polynucleotide from France) wound dressing that maintains moisture in the skin and promotes wound healing by forming a film on damaged skin barrier or dry skin.

Product Specification

Product Name	UREVS O
Ingredient · Content	PN(Polynucleotide) 20.0 mg/mL
Package	2.0mL x1 syringe
Purpose	Protects areas where the skin barrier is damaged
Storage conditions	Avoid direct sunlight and store between 1 ~ 30 °C.
Expiry date	24 months from the date of manufacture

Features & Benefits

Skin barrier healer Form a physical film on the outer skin to protect the damaged skin and retain moisture	High content PN Contains PN 20mg/mL, an anti-inflammatory and skin regeneration ingredient	Balance Recovery Reduces sebum secretion and improves skin texture by restoring oil-water balance
---	---	--

UREVS Loheve

About Loheve

A product made from a combination of hyaluronic acid (HA) with high elasticity and polynucleotide (PN) with high viscosity, PN is a genetic fragment and a fraction larger than PDRN extracted from salmon. In particular, to further maximize the cell regeneration effect of PN, we mixed 1.5 times more PN raw materials.

Product Specification

Product Name	UREVS Loheve
Ingredient · Content	PN(Polynucleotide) 15.0mg/mL + HA(Hyaluronic Acid) 10.0mg/mL
Lidocaine	3.0mg/mL
Package	1.1mL x 1 syringe
Needle (G)	[33G x 4mm] x 2 needles
Efficacy	Temporarily improve facial wrinkles in adults
Storage conditions	Avoid direct sunlight and store between 2 ~ 25 °C.
Expiry date	24 months from the date of manufacture

Features & Benefits

Skin regeneration	Verified Safety	Pain minimization	Elasticity improvement
Enhances self-renewal power by activating the skin's own regenerative ability	Highly biocompatible ingredient that does not cause rejective reaction to the skin.	pH similar to human body, contains lidocaine to minimize discomfort such as pain	Replenish elastic fibers by promoting the functions of collagen and fibroblasts, which are reduced due to aging

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

UREVS PRO 32RX

About PRO 32RX

Based on pharmaceutical grade HA produced in France, it is an innovative multi-remodeling filler in the form of an HA hybrid complex of high molecular HA (H-HA 32mg) and low molecular HA (L-HA 32mg) using a unique thermal cross-linking technology without using a cross-linking agent.

Product Specification

Product Name	UREVS PRO 32RX
Ingredient · Content	High Molecular HA (32mg) & Low Molecular HA (32mg)
Package	2.0mL x 1 syringe
Needle (G)	[27G x 13mm] x 2 needles
Efficacy	Collagen production through fibroblast stimulation, Elasticity/anti-aging improvement
Storage conditions	Avoid direct sunlight and store between 2 ~ 25 °C.
Expiry date	24 months from the date of manufacture

Features & Benefits

Bio lifting Semi-permanent lifting through improvement of skin's fundamental tissue structure	High-content HA thermal cross-linking Thermal blending of high-molecular HA (32mg) + low-molecular HA (32mg)	Fast procedure time Reduction of time due to injection of remodeling points (5 points)
---	--	--

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

UREVS PRO 32RX Premium

About PRO 32RX Premium

By adding succinic acid and tranexamic acid to the PRO32RX product, it becomes a premium product that creates smoother and more radiant skin.

Product Specification

Product Name	UREVS PRO 32RX Premium
Ingredient · Content	High Molecular HA (32mg) & Low Molecular HA (32mg) + Succinic Acid + Tranexamic Acid
Package	2.0mL x 1 syringe
Needle (G)	[27G x 13mm] x 2 needles
Efficacy	Collagen production through fibroblast stimulation, Elasticity/anti-aging improvement
Storage conditions	Avoid direct sunlight and store between 2 ~ 25 °C.
Expiry date	24 months from the date of manufacture

Features & Benefits

Bio lifting	High-content HA thermal cross-linking	Fast procedure time	Flawless skin effect
Semi-permanent lifting through improvement of skin's fundamental tissue structure	Thermal blending of high-molecular HA (32mg) + low-molecular HA (32mg)	Reduction of time due to injection of remodeling points (5 points)	Skin flawless effect through Tranexamic Acid, which suppresses melanin production, and Succinic Acid, which relieves inflammatory skin problems.

UREVS Pro Hydro

About Pro Hydro

This is a wound dressing, made with pharmaceutical grade HA which is from France. It is applied to the vulva, wounds with little exudate, and dry skin to form a protective film and prevent skin damage.

Product Specification

Product Name	UREVS Pro Hydro
Ingredient · Content	High Molecular HA (32mg) & Low Molecular HA (32mg)
Package	2.0mL x 1 syringe
Efficacy	Apply to the vulva, wounds with little exudate, and dry skin to form a protective film and prevent skin damage.
Storage conditions	Avoid direct sunlight and store between 1 ~ 30 °C.
Expiry date	24 months from the date of manufacture

Features & Benefits

Anti-inflammation Excellent solution for anti-inflammation and pH balancing as it is mildly acidic	High content hyaluronic acid Thermal blending of high-molecular HA (32mg) + low-molecular HA (32mg)	Wound dressing usable on the vulva Create a pH environment that contributes to the activation of lactic acid bacteria (Lactobacillus)
--	---	---

UREVS 4D FILL

About 4D FILL

UREVS 4DFill is an advanced CaHA filler that delivers exceptional immediate volume and ensures long-term, powerful collagen biostimulation for sustained natural elasticity.

Product Specification

Product Name	UREVS 4D FILL
Ingredient · Content	CaHA(Calcium hydroxyapatite) + CMC(Carboxymethy Cellulose)
G'(Pa)	300~800 Pa
Package	0.8mL x 2 syringes
Needle (G)	[33G x 4mm] x 2 needles
Storage conditions	Avoid direct sunlight and store between 1~ 30 °C.
Expiry date	24 months from the date of manufacture

Features & Benefits

Biocompatible	Immediate Volume Effect	Collagen Regeneration	Long-lasting Results
Formulated with CaHA, identical to human bone components, it boasts exceptional biocompatibility and safety.	Delivers instant, noticeable volume upon injection, allowing for immediate visible transformation.	Goes beyond mere filling by stimulating natural collagen production within the skin, restoring its innate elasticity.	Thanks to its autologous collagen regeneration and sustained effects, it maintains beautiful volume and elasticity for an extended period.

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

MOATOX

About MOATOX

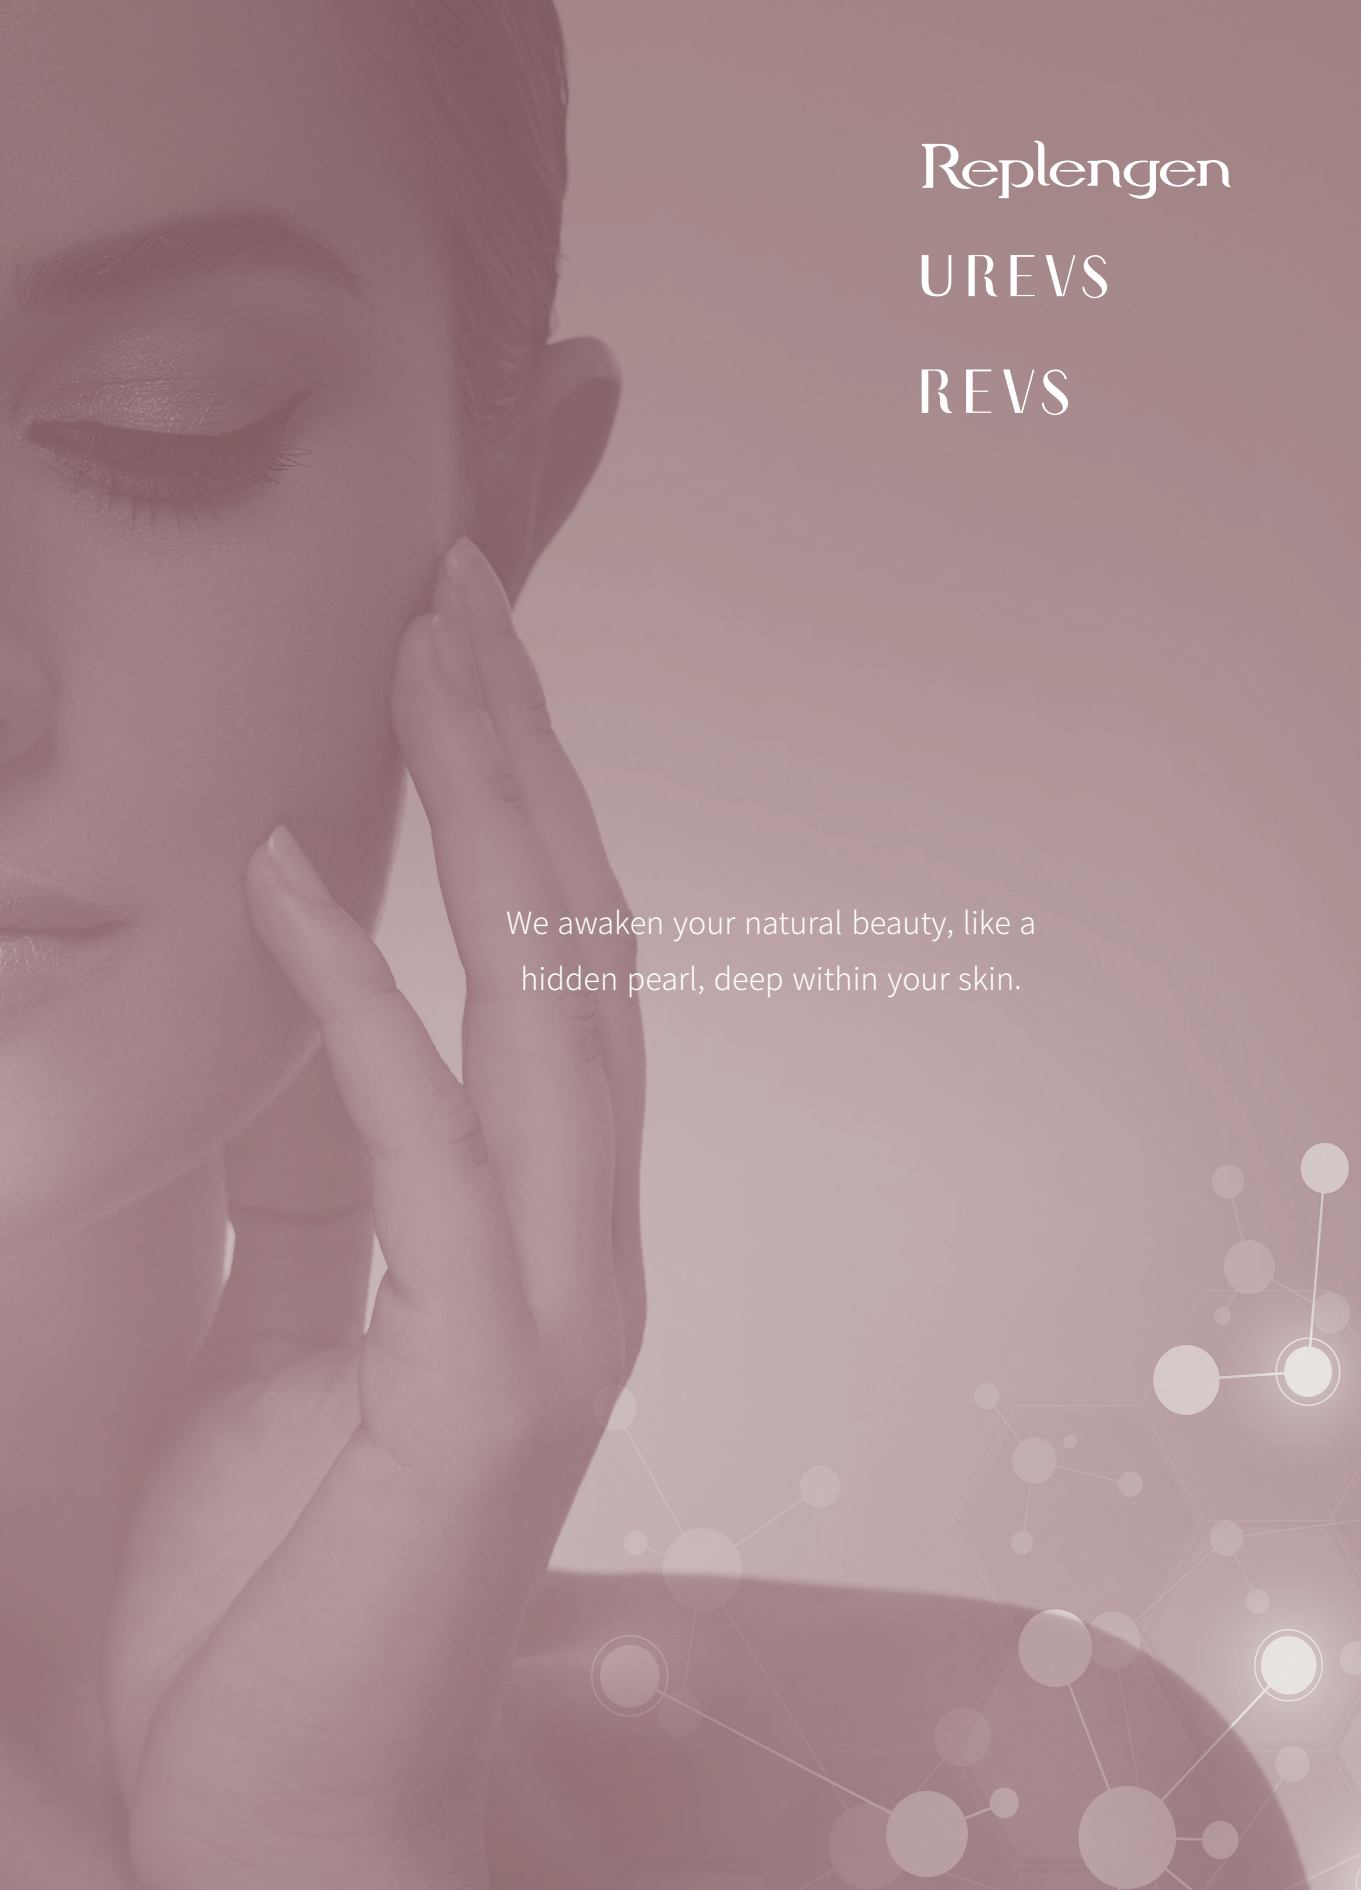

100% Pure Clostridium Botulinum Toxin Type A, achieved through sophisticated scientific precision and a meticulous two-step purification process.

Product Specification

Product Name	MOATOX100U (Clostridium BotulinumToxin Type A)	
Ingredient · Content	Strain: Clostridium Botulinum (SP) 100units(U) + Human Serum Albumin + Sodium Chloride	
Package	100units	200units
Efficacy	Temporary improvement of moderate to severe frown lines involving the corrugator muscles of the brow and crow's feet.	
Storage conditions	Well-closed container, Refrigerate at 2~8°C.	
Expiry date	36 months from the date of manufacture	

Features & Benefits

100% High Purity Completed with the latest vacuum-drying and 2-step purification processes, this toxin guarantees 100% purity and premium quality.	Low Immunogenicity Risk As a pure toxin minimizing non-toxin complexing proteins, it significantly reduces the risk of resistance (neutralizing antibody formation) during repeated treatments.	Superior Potency Stability Offers exceptional potency stability, ensuring the drug's efficacy remains robust even after reconstitution (dilution).
---	--	---

A close-up, monochromatic image of a woman's face, focusing on her eye and cheek. Her hand is gently touching her cheek. The image has a soft, ethereal quality with a reddish-pink tint. In the bottom right corner, there is a faint, stylized molecular or network diagram consisting of interconnected circles and lines.

REVS PRO32

About PRO32

Based on pharmaceutical grade HA produced in France, it is an innovative multi-remodeling product of a hybrid composite that uses proprietary thermal cross-linking technology to combine high-molecular HA (H-HA 32 mg) and low-molecular HA (L-HA 32 mg) without using a cross-linking agent.

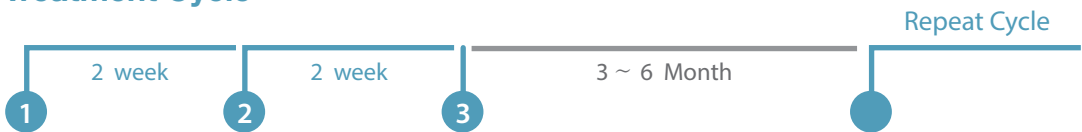

Product Specification

Product	REVS PRO32
Ingredient · Content	High Molecular HA (32mg) & Low Molecular HA (32mg)
Package	2.0mL x 1 syringe
Storage conditions	Avoid direct sunlight and store between 1 ~ 30 °C.
Expiry date	30 months from the date of manufacture

Features & Benefits

Bio Lifting Semi-permanent lifting through improvement of skin's fundamental tissue structure	High-content HA thermal cross-linking Thermal blending of high-molecular HA (32mg) + low-molecular HA (32mg)	Fast procedure time Reduction of time due to injection of remodeling points (5 points)

UREVS PRO45

About PRO45

A next-generation Bio-Remodeling skin booster featuring a high-concentration HA Hybrid Complex that deeply penetrates the dermis to restore volume and firmness by activating cell regeneration and rebuilding the skin's structure.

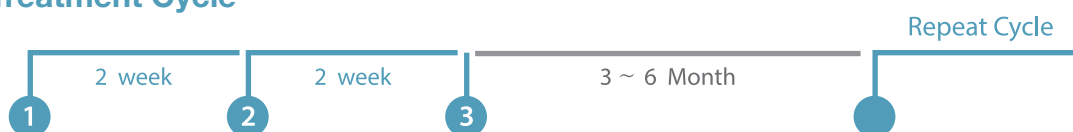

Product Specification

Product Name	UREVS PRO45
Ingredient · Content	High Molecular HA (45mg) & Low Molecular HA (45mg)
Package	2.0mL x 1 syringe
Storage conditions	Avoid direct sunlight and store between 1~ 30 °C.
Expiry date	30 months from the date of manufacture

Features & Benefits

Bio Lifting Semi-permanent lifting through improvement of skin's fundamental tissue structure	High-content HA thermal cross-linking Thermal blending of high-molecular HA (45mg) + low-molecular HA (45mg)	Fast procedure time Reduction of time due to injection of remodeling points (5 points)
---	--	--

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

UREVS PRO45 Succinate

About PRO45 Succinate

Pro45 Succinate is a bio-lifting skin booster that utilizes Succinate to regulate inflammatory cytokines for overall skin improvement and trouble relief, while its uniquely cross-linked, high-purity French HA smoothly fills and lifts sagging skin.

Product Specification

Product Name	UREVS PRO45 Succinate
Ingredient · Content	High Molecular HA (45mg) & Low Molecular HA (45mg) + Succin Acid
Package	2.0mL x 1 syringe
Storage conditions	Avoid direct sunlight and store between 1 ~ 30 °C.
Expiry date	30 months from the date of manufacture

Features & Benefits

Bio lifting Semi-permanent lifting through improvement of skin's fundamental tissue structure	High-content HA thermal cross-linking Thermal blending of high-molecular HA (45mg) + low-molecular HA (45mg)	Fast procedure time Reduction of time due to injection of remodeling points (5 points)	Flawless skin effect Skin flawless effect through Succinic Acid, which relieves inflammatory skin problems
---	--	--	--

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

REVS RMT140HPn

About RMT140HPn

Professional anti-aging cosmeceutical product that helps fundamentally improve skin aging with an optimal combination of active ingredients such as PN, HA, and peptides

Product Specification

Product	REVS RMT140HPn
Ingredient · Content	PN + HA + 47 active ingredients
Package	3.0mL x 10 vials
Storage conditions	Avoid direct sunlight and store between 1 ~ 30 °C.
Expiry date	30 months from the date of manufacture

Features & Benefits

Ingredient optimization

Apply active ingredients in ratios optimized for skin improvement

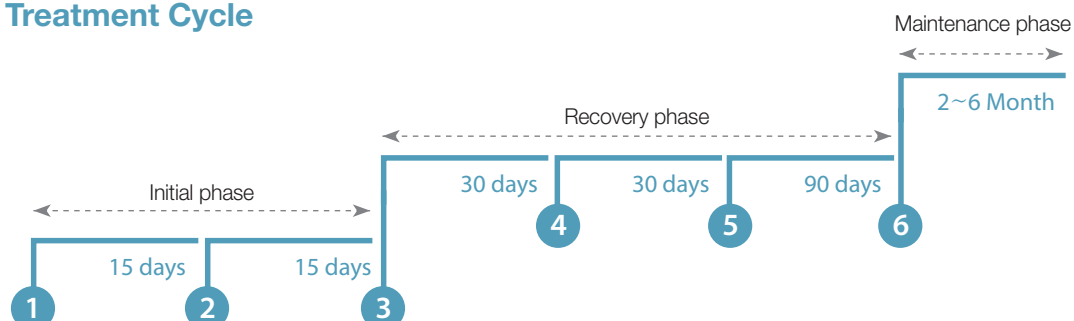

Skin regeneration

Enhances self-renewal power by activating the skin's own regenerative ability

Overall skin improvement

Restoration of the overall condition of the skin, such as skin texture, skin tone, and oil-moisture balance

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

REVS Prime Pro

About Prime Pro

Moisturizing and whitening anti-aging skin booster that makes dull skin moist and bright

Product Specification

Product	REVS Prime Pro
Ingredient · Content	PN + HA + Niacinamide
Package	2.5mL x 2 syringes
Storage conditions	Avoid direct sunlight and store between 1 ~ 30 °C.
Expiry date	30 months from the date of manufacture

Features & Benefits

Whitening & Moisturizing

Improvement of skin tone and dryness through various whitening ingredients (glutathione, niacinamide) and HA

Skin regeneration

Enhances self-regeneration by activating the skin's own regenerative ability

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

REVS **V2** Skin Booster**About V2**

V2 Skin Booster delivers fundamental skin regeneration and deep hydration with Polynucleotide and Hyaluronic Acid, enhancing firmer elasticity with advanced anti-aging ingredients for ultimate skin vitality.

Product Specification

Product	V2 Skin Booster
Ingredient · Content	PN + HA + Amino Acid + NAG
Package	4.0mL x 10 vials
Storage conditions	Avoid direct sunlight and store between 1 ~ 30 °C.
Expiry date	30 months from the date of manufacture

Features & Benefits
Synergistic combination that restores damaged skin elasticity

The powerful regeneration effect of Polynucleotide and the overwhelming synergy of Hyaluronic Acid fill the skin with moisture deep within and hold it tightly.

Awaken your skin's natural power, giving it vitality and energy

Carefully selected anti-aging ingredients such as N-Acetylglucosamine, Anti-Aging Amino Acids, and Glutathione are added to complete a new level of skin vitality.

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

REVS Booster Serum

About Booster Serum

A targeted care solution for deep elasticity, formulated with PN, HA, and Proteoglycans, specialized in moisturizing and regeneration.

Product Specification

Product	REVS Booster Serum
Ingredient · Content	PN + HA + AminoAcid + Proteoglycan
Package	4.0mL x 1 vial
Storage conditions	Avoid direct sunlight and store between 1 ~ 30 °C.
Expiry date	30 months from the date of manufacture

Features & Benefits

New wrinkle improvement material Proteoglycan A new functional material that promotes hyaluronic acid synthesis in fibroblasts and helps collagen synthesis	Maximum effect by optimal combination Verify maximum efficacy through combination of each raw material concentration	Contains wrinkle-specialized ingredients Contains Proteoglycan, NAG, PN and 4 amino acids that are excellent for wrinkle improvement
---	--	--

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

REVS SNOW Fill

About SNOW Fill

It promotes collagen production by stimulating fibroblasts, and contributes to skin volume recovery and elasticity improvement.

Product Specification

Product	REVS SNOW Fill
Ingredient · Content	PLA (Poly DL-Lactide)
Package	50 mg x 10 vials
Storage conditions	Avoid direct sunlight and store between 1 ~ 30 °C.
Expiry date	30 months from the date of manufacture

Features & Benefits

Fast dissolution

Rapid dissolution of the product and no nodule formation because of perfect spherical shape of the bead made by uniform particles

Eco-friendly materials

Eco-friendly materials synthesized using 100% recyclable materials [corn, potato starch]

Self volume production

Semi-permanent effect due to collagen production within the skin

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

REVS XoRadiance

About XoRadiance

Professional anti-aging cosmeceutical product that penetrates into dermis layer and help in improving the quality from the deep in the skin.

Product Specification

Product	REVS XoRadiance
Ingredient · Content	Formula 1 (Lyophilized fiber): Exosome Formula 2 (Liquid): PN + HA + Amino Acid + NAG
Package	Formulation 1: 25mg/vial / Formulation 2: 4mL/vial 25mg + 4mL / 2 vials : 1 set
Expiry date	30 months from the date of manufacture

Features

2 billion exosomes	Emphasizing Delivery System	Cellopherin exosomes penetrate deep into the skin
Contains 16 times more exosomes than regular exosomes (average 120 million/mL)	An optimized delivery system with enhanced tissue permeability, ensuring the optimized, deep absorption of active ingredients into the skin.	Spreads evenly in the dermis layer, and some even reaches the deepest part of the dermis layer.

Treatment Cycle

UREVS JinEXO

About JinEXO

UREVS JinEXO is a next-generation skin booster formulated with potent Ginseng Exosomes, delivering high-level anti-aging and comprehensive regeneration effects through a synergistic blend of PN, Glutathione and Hyaluronic Acid.

Product Specification

Product	UREVS JinEXO
Ingredient · Content	Formula 1 (Lyophilized fiber): Panax Ginseng Root Protoplasts + Mannitol + Trehalose Formula 2 (Liquid): PN + HA + Proteoglycan + Peptide + Tranexamic Acid
Package	Formula 1: 150mg/vial + Formula 2 : 4mL/vial
Storage conditions	Avoid direct sunlight and store between 1 ~ 30 °C.
Expiry date	30 months from the date of manufacture

Features & Benefits

Powerful Anti-Aging Based on Ginseng

Plant-based exosomes with the antioxidant power of ginseng address the root cause of skin aging, enhancing elasticity and regenerative power

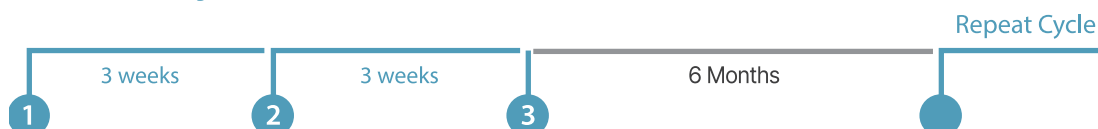

Regenerative Synergy with PN

The addition of Salmon DNA (PN) creates a powerful synergy, restoring damaged skin barriers and filling the skin from within.

Premium Complex Formula

A complex of proteoglycan, peptides, and tranexamic acid enhances moisturizing, elasticity, and brightening for simultaneous anti-aging and tone improvement.

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

UREVS UNR+

About UNR+

UREVS UNR+ is a cutting-edge solution featuring a proprietary synergistic blend of NR and NMN, specifically designed to rapidly enhance NAD⁺ synthesis and powerfully support cellular vitality.

Product Specification

Product	UREVS UNR+
Ingredient · Content	Formula 1 (Lyophilized fiber): NR (Niacinamide Ribosidechloride) + NMN (Nicotinamide Mono Nucleotide) Formula 2 (Liquid): PN + HA + Amino Acid + NAG
Package	2 Vials / box
Storage conditions	Avoid direct sunlight and store between 1 ~ 30 °C.
Expiry date	30 months from the date of manufacture

Features & Benefits

Slow Aging

By boosting NAD⁺, it activates sirtuins, a key anti-aging factor, and enhances DNA damage repair, fundamentally restoring the skin's youthful vitality.

Collagen Production

It induces the synthesis of collagen, the key to skin elasticity, and activates the proliferation of HDF (Human Dermal Fibroblasts), providing firm, healthy elasticity that rises from deep within the skin.

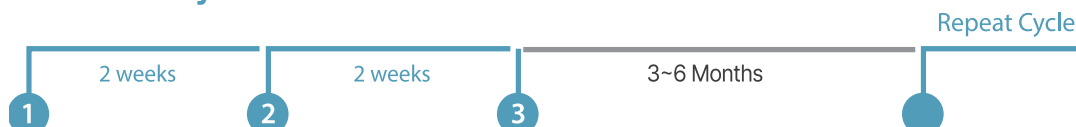

Antioxidant Effect

By elevating intracellular NAD⁺ levels, it strengthens the function of powerful antioxidant enzymes and effectively eliminates reactive oxygen species caused by external harmful factors, protecting the skin and keeping it healthy.

Skin Whitening

Provides a fundamental whitening effect by inhibiting the excessive proliferation of melanin cells (SK-MEL-2 cells) and reducing melanin production, leaving the skin tone clear and transparent.

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

UREVS COL^{III}

About COL^{III}

UREVS COL^{III} directly replenishes the skin with human recombinant Type^{III} collagen, the essential “baby collagen,” to effectively restore lost elasticity and dermal density at the root of skin aging.

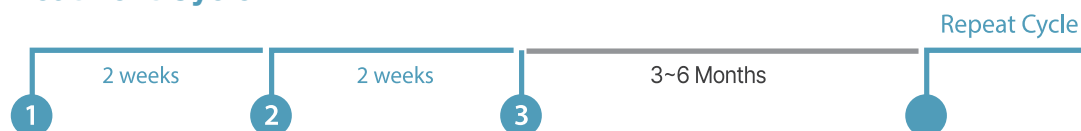

Product Specification

Product	UREVS COL ^{III}
Ingredient · Content	Formula 1 (Lyophilized fiber): Recombinant Human Collagen Type ^{III} Formula 2 (Liquid): PN + HA + Amino Acid + NAG
Package	Formula 1 : 20mg/vial + Formula 2 : 2mL/vial
Storage conditions	Avoid direct sunlight and store between 1 ~ 30 °C.
Expiry date	30 months from the date of manufacture

Features & Benefits

Enhances firm skin elasticity	Smooth skin and improve wrinkles	Essential skin regeneration	Vitalizing Skin
Fills the dermis layer, the core component of the skin, tightly and firmly, and fundamentally improves the elasticity of the skin.	Effectively improves everything from deep wrinkles to fine lines by restoring damaged and weakened collagen fibers and increasing skin density.	Stimulates collagen production that has slowed down due to aging, restoring the skin's ability to repair and regenerate itself.	Directly supplies collagen with a structure 100% identical to that of the skin, revitalizing skin cells and creating vibrant, healthy skin

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

REVS TF Collagen

About TF Collagen

Anti-aging skin booster that contains “Tremella Fuciformis”, the 4th generation vegan collagen which is a future replacement of animal collagen. Since it has very low molecular weight of 400 Dalton, it is easy to penetrate into the skin.

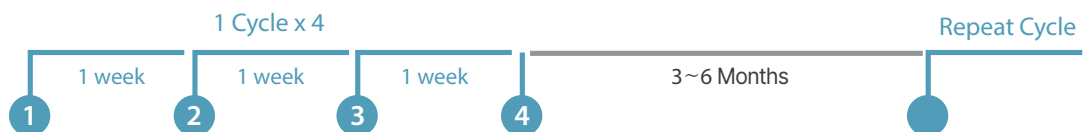

Product Specification

Product	REVS TF Collagen
Ingredient · Content	Formula 1 (Lyophilized fiber): Tremella Fuciformis Formula 2 (Liquid): PN + HA + Amino Acid + NAG
Package	Formulation 1: 40mg/vial / Formulation 2: 4mL/vial 40mg + 4mL / 2 vials : 1 set
Expiry date	30 months from the date of manufacture

Features & Benefits

World's first ICID listed ingredient	Vegan Collagen	400 daltons
The world's first ICID-registered plant-based collagen (Tremella Fuciformis)	Replaces the risk of existing animal collagen(heavy metal, microplastic detection, etc.)	Excellent absorption with “complete” skin penetration molecular weight

Treatment Cycle

* The treatment cycle can be changed according to the expert's opinion

REVS LipoSV

About LipoSV

It is a lipolysis with non-steroidal GPC (Glycerophosphocholine) component that destroys fat cells themselves and excretes them in bile or urine. Compared to existing steroidal lipolytic agents such as PPC and DC, side effects such as swelling and pain that occur during lipolysis are minimized.

Product Specification

Product	REVS LipoSV
Ingredient · Content	Glycerophosphocholine (GPC) 2.5%
Package	10mL x 1 vial
Expiry date	30 months from the date of manufacture

Features & Benefits

Minimize side effects Use of GPC, a non-steroidal natural ingredient, to alleviate side effects of steroidal ingredients	Fat emulsification After fat cell destruction, the residue is excreted in bile or urine	Pain relief A level similar to blood acidity, reducing pain during the procedure

REVS KeraDense

About KeraDense

REVS KeraDense improves scalp condition by reducing sebum secretion and improving moisturizing power with Dexpanthenol as the main ingredient

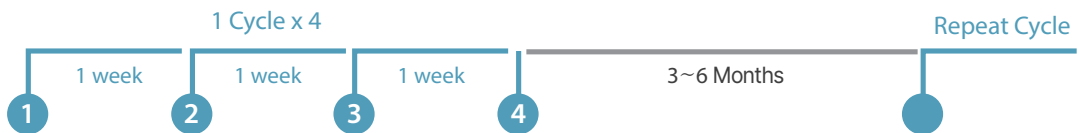

Product Specification

Product	REVS KeraDense
Ingredient · Content	D-Panthenol
Package	10mL x 1 vial
Expiry date	30 months from the date of manufacture

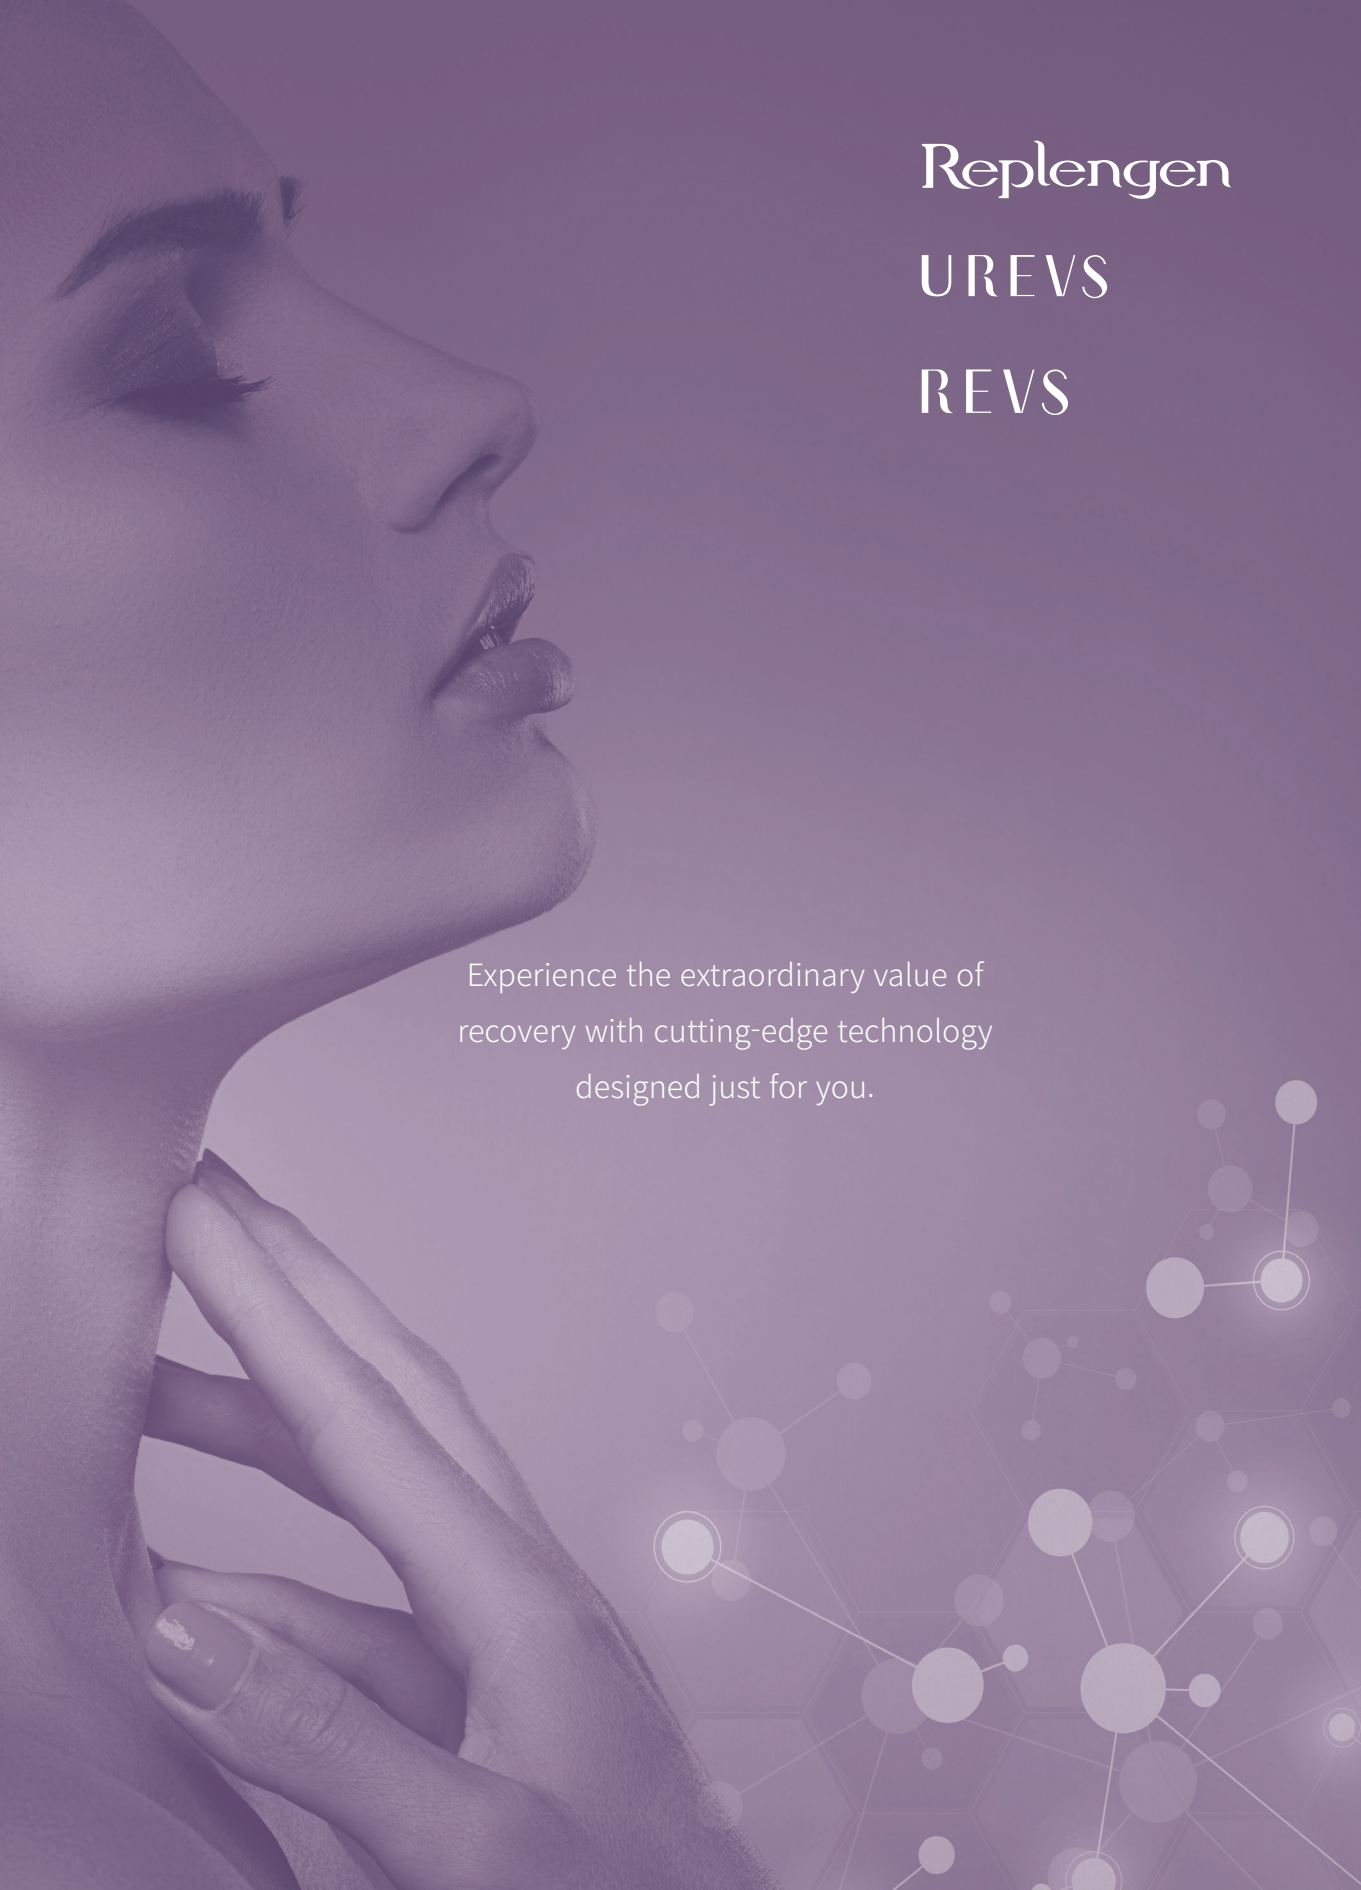

Features & Benefits

Improving the scalp environment Improving the scalp environment and inducing hair growth through growth factor expression and cell growth promotion	Ingredients for alleviating hair symptoms Use of D-Panthenol ingredient notified by the Ministry of Food & Drug Safety as an ingredient for relief of hair loss symptom.	Mesotherapy care Simple treatment with mesotherapy products, as it's not cosmetics and medicines

REVS Repairing Serum

About Repairing Serum

REVS Repairing Serum is a functional cosmetic enriched with Salmon-derived Proteoglycan and Polynucleotide plus 46 skin-benefiting ingredients, optimized for rapid soothing and enhancing post-procedure effects through intense hydration and collagen boost.

Product Specification

Product	REVS Repairing Serum
Ingredient · Content	Proteoglycan + PN + 46 types of active ingredients
Package	30mL
Efficacy	Helps Brighten skin, Helps improve wrinkles on skin.
Expiry date	Separate labeling on the product

Features & Benefits

Key ingredients that contain the vitality of salmon

Proteoglycan extracted from salmon nasal cartilage and polynucleotide, also known as salmon DNA, exhibit excellent moisture retention and collagen regeneration promotion effects.

Premium aftercare cosmetics

Excellent regenerative and soothing effects help quickly recover irritated skin after treatment and enhance the treatment effect.

Contains ingredients specialized for facial skin regeneration

Contains 46 effective ingredients, including Proteoglycan and PN, that are excellent for improving facial skin.

TF Collagen Cosmetics

About TF collagen Cosmetics

Anti-aging skin booster that contains “Tremella Fuciformis”, the 4th generation vegan collagen which is a future replacement of animal collagen. Since it has very low molecular weight of 400 Dalton, it is easy to penetrate into the skin and helps smooth spreading.

Product Specification

Product	Mist	Serum	Ampoule	Cream
Main Ingredient	Hydrolyzed Tremella Fuciformis Berk Extract Collagen			
Package	100mL	30mL	7mL x 4vials	50mL
Expiry date	Separate labeling on the product			

Features & Benefits

World's first ICID listed ingredient

The world's first ICID-registered plant-based collagen (Tremella Fuciformis)

Vegan Collagen

Replaces the risk of existing animal collagen (heavy metal, microplastic detection, etc.)

400 Daltons

Excellent absorption with “complete” skin penetration molecular weight

REVS Sparkling Mask

About Sparkling Mask

REVS Sparkling Mask delivers a three-step skincare experience, deep cleansing with charcoal bubbles, revitalizing with PDRN, niacinamide, and adenosine, and hydrating with proteoglycan for a smooth, radiant glow.

Product Specification

Product	REVS Sparkling Mask
Main Ingredient	PDRN + Proteoglycan + 21 Active Ingredients
Package	22g X 5ea/ box
Expiry date	Separate labeling on the product

Features & Benefits

Cleansing

Carbonated bubbles and charcoal-infused fabric work together to gently remove impurities and dead skin cells from deep within the pores. They help purify and refine the skin, minimizing the appearance of pores and leaving the skin smooth and refreshed.

Renewal

As your skin becomes clean and clear, PDRN, Niacinamide, and Adenosine are quickly absorbed to promote skin regeneration, brighten the complexion, and reduce the appearance of fine lines for firmer, healthier skin.

Moisturizing

Proteoglycan delivers intense hydration to dry, tired skin, leaving it soft, dewy, and radiant with lasting moisture.

REVS Bio Gel Mask

About Bio Gel Mask

REVS Bio Gel Mask is a transparent, non-irritating hydrogel mask that is not sensitive to temperature, so it preserves the shape of the gel sheet excellently. It is a new concept no-mesh type mask that soothes the skin with an immediate cooling sensation without irritation.

Product Specification

Product	REVS Bio Gel Mask
Main Ingredient	Carrageenan + Glucomannan + 10 Active Ingredients
Package	25g (0.88oz) X 5ea/ box
Expiry date	Separate labeling on the product

Features & Benefits

Fast Cooling Effect

Provides immediate cooling effect by maintaining an average temperature of 26.5 degrees when attached

Skin irritation index 0.00

Primary irritation test for Human skin, and its skin irritation index is 0.00

Excellent light transmittance, PDT treatment possible

Since the LED laser penetrates the gel mask well, laser regenerative treatment is possible, and it also soothes sensitive skin after the treatment.

REVS MTS STAMP16

About MTS STAMP 16

REVS MTS STAMP 16 is a precise, hygienic home-care solution featuring sixteen 0.25mm pure gold-plated needles for uniform vertical penetration, maximizing the efficient delivery and absorption of various ampoule active ingredients into the skin

Product Specification

Product	REVS MTS Stamp 16
Main Ingredient	Stainless steel (24k gold plating)
Package	5PCS/ box
Efficacy	Stimulates the skin to help absorb cosmetics
Expiry date	Separate labeling on the product

Features & Benefits

Precise Penetration With 16 micro-needles, the device penetrates the skin vertically and precisely, minimizing irritation and allowing for meticulous care on contoured areas.	Hygienic Use The needles are made of SUS 304 stainless steel and are plated with 24K pure gold, ensuring hygienic use without concerns of corrosion.	Efficient Absorption The 0.25mm needles create pathways in the skin, allowing for the effective delivery of ampoule ingredients to maximize their benefits.	Convenient Usage The intuitive design allows for easy attachment of ampoules, so anyone can effortlessly experience professional-level at-home care.
